

Many thanks to all of the following clients who have very kindly provided a feedback, Tony.

Magic Tony ! Thanks to him I know now that I am a highly sensitive person, which was a kind of surprise for me, waiting 61 years to discover it ! In another session he boosted my very low blood pressure and it's only now that I had it measured, perfect ! Coming back from India, I had a very bad cough and he suggested to help me. It had vanished by the end of the session, I could not believe it ! Instantaneously ! And yesterday, as I broke my kneecap 15 days ago, Tony helped me so much, I felt so well at the end of the session that I almost forgot my "metal legs" (crutches). I love the way he works, going to the root of the problem very quickly. The result is really amazing ! Thanks so much dear Tony.

'I saw Tony Mills for one session in London, in October 2014, the session was an hour and was life changing for me. Great things started happening straight away and I was so much more motivated with tons more more energy. Best money I ever spent. I feel so thankful. Every day since, I find I am saying to myself 'I feel fantastic'. I feel he really saved me.:-

I went to see him because I had felt like I was getting ME and lethargic to the extreme so that I avoided even small tasks like putting away the washing. Prior to the session I was having to have at least one 2 hour 'nap' in the day even though I slept long and well in the night. Once I had his energy clearing all my fatigue had gone and I was able to stay up later and get things done. Tony removed heavy thought forms from my aura which had been feeding into my physical body and were sucking my energy; so I was not getting enough for me. He opened me up to my own positivity which had been crushed in my life. He helped me change my mind set to be more positive by releasing past trauma so now I am less vulnerable to negative energy attaching itself to me. Now I am able to get on with my future. I would highly recommend everyone has a check-over with Tony Mills.

Tony has helped me tremendously. He is able to tap into the core, the truth. The results I, and many people I have referred to Tony, have been incredible. An example of this is that I have had a severe latex allergy for many years, not able to touch or be in the room with any by product of latex. The effects for me were severe, chocking, swollen itchy body and an ambulance called immediately. Each time I have given birth or had an operation the room would have to be scrubbed and everything removed before hand which took several hours. One session focusing on this with Tony and I was cured. During the session, to my disbelief, he had me holding a balloon! And still now I have no effects. This has been the same for claustrophobia and several other fears I 'used to' have.

My 4 year old suffered from acid reflux from birth which became a burden on her more as she got older. After contacting Tony he was able to work his magic via distance healing and clear the problem. My daughter is much more at ease and lives a happier life without the pain of acid reflux. Many thanks Tony.

Negative / Discordant Energies - I was going about my normal day when I very suddenly felt completely drained of energy. My whole body ached and felt like lead and I felt cold and shivery. I knew I was not ill as such but could not understand what was happening to me. I contacted Tony for distance healing and his partner, Annie stepped into my energy field and immediately felt a discordant energy in my throat chakra. Tony checked my aura and found it was closed down. Tony removed this negative energy and rechecked my aura and found it to be fully restored and strong.

After the healing I felt so much better but decided to take it easy and spend the rest of the day reading some of the books in preparation for my own Living Lens training at the end of July - really looking forward to it! Especially as Tony says once I have had the Living Lens training I will be able to remove these negative energies myself.

I attended Tony's Energetic Healing Wisdom class on Saturday and I truly am amazed with the results. You have to see and feel it for yourself to believe it. An experience I will never forget. Many Thanks to Tony Mills - Energetic Wisdom and Joanne Potts at True Serenity - Rochdale's Centre For Holistic Excellence for the recommendation.

Following our very successful group healing event in sunny Roade (Northants) last month I noticed that my Reiki power has increased. Stands to reason really, the clearer the channel, the greater the power. Milton Keynes Reiki Support Group met again this evening, a few of us were also at Tony Mills group healing event and noticed the same, as did the clients.

I do feel great since ! I feel fantastic, much more calmer, joyful and much more kinder to others than usual.

I can say without doubt that the house harmonization Tony did for me over a year ago has made a huge difference. There is a calmness and comfort in the house that was never there before. It is peaceful and like a refuge from the ills of the world.

I wear the Red 9 harmonizing pendant every day and keep the Living Lens on my person each day. They center me and help to keep anxiety and nervousness at bay.

Since working with Tony I am much less fearful of life; I am a more relaxed, calm, positive, and happy person. I know, too, that with on going (distance healing) work and the expertise of Tony and Annie I will continue to move forward, living well and being healthy in every aspect of life.

I feel very blessed and privileged to have had an individual healing session with Tony Mills. Tony has a profound gift in identifying energy blocks and then clearing them. To see Tony in action, particularly when he is guided by spirit to know exactly where & how to move energy in & around the body, is truly amazing-so much so I found it quite emotional. Not only that but Tony has a very non-judgemental, empathetic and compassionate way with his clients which is very important, particularly when (the client-me) is feeling a bit nervous or not deserving.

When I found out about Tony, I was suffering depression, low self-esteem, lack of self-belief, I had too many fears to list, and I was struggling to see anything clearly. I had an emotionally/psychologically abusive upbringing and for too many years had been trying to find a way through that. I had some success with self-help books by Louise Hay, and Diana Cooper and had made some headway but I felt like every time I thought I had reached the mountain top, I would actually find I was on a plateau and the mountain stretched up and up ahead of me. I could see how much of my life was suffering because of the weight of the baggage I was carrying. Then through delightful serendipity I met Tony Mills, and decided to give the Living Lens a go. After the first session I felt as if I had taken an empty trunk to Tony's house and that he had taken all the emotional baggage off me and buried it somewhere in his orchard! The negative inner chatterbox that has been a feature of every day for as long as I can remember has gone completely! The impact after just one session was astounding. I have had four sessions and I can say that I am not the person I was when I walked into that first session; I am now the person I always dreamt I could be. If someone had told me how different I would feel about myself and life, I probably would not have believed it was possible, but my outlook has totally changed; I do not live in fear anymore, I greet the world with a smile and the world smiles back, I feel strong with a solid self-belief, a positive outlook and I now feel anything is possible. I have found my inner power and amazing things are happening. I can see that people can see that change too. It is utterly wonderful and profound and there just aren't enough superlatives to describe how I feel about Tony's work and its effect on me.

Louise USA - House Harmonising.

When Tony came to the States last year he visited me for a house harmonizing. I recall he had previously advised me that cats are drawn to areas of Geopathic and Electromagnetic stress in homes. My cat is an older adopted Himalayan with a peculiar distant behavior. When Tony brought out his dowsing rods Margot (the cat) tried to get away but she was frozen in her movement with paws in the air for several seconds before she could continue her journey, AMAZING. She is a changed cat, now follows me everywhere, sits next to me etc. and sleeps under the harmonizer Tony placed in my house.

After the house clearing I felt as if I had taken off a very heavy winter coat. The house is feeling so much lighter.....! The energy has definitely changed.....So is mine and Margot's, Thank you Tony !!!!

I met Tony over 3 years ago when I was working in a beautiful village in the mountains of Mallorca. I connected with him straight away and felt such a sense of trust since the first moment. This is not a usual occurrence for me, especially with a man. I spotted the symbol he was wearing around his neck which prompted an interesting conversation about his work and everything moved from there.

Tony has been a wonderful gift in my life, helping me untangle threads from this lifetime and many past life experiences. His gift of getting to the root of what causes physical and emotional discomfort is incredible. I have released so many patterns and old ways of being, not always been an easy process, however very rewarding.

Tony has such a pure intention when working with his clients and is one of the most selfless people I have ever met! Patience, kindness and honesty being his core human qualities and on top of that his intuition and magic way of connecting with deep wounds and gently moving them is truly beautiful.

I have gained so much self worth, a new sense of confidence and a lot self belief from the many sessions of healing with Tony. He came into my life at the perfect moment and surfed some huge waves with me. I will be forever grateful for his kindness, unconditional love and of course his beautiful friendship.

I just wanted to say that I've felt very "changed " since our session together. All sorts of obstacles seem to have gone and I am able to move forward.

I experienced some of Tony's healing at the One World Festival <http://oneworldcamp.com/england> - he works equally well in a large group situation or on a one to one basis. Various aspects were addressed during the sessions including chakras, meridians, the spine and karmic guilt. I had healing on my central meridian and as a Reiki master always do the Hui Yin (tongue placed at top of the mouth, anus contracted) when giving Reiki or attuning people. Since I was given the healing my tongue naturally rests at the top of my mouth. On the final day of One World it was an open floor - people could ask for help with any difficult issues. I had been job seeking for a while and felt my confidence had taken a battering. I received a healing from Tony where he used the Living Lens ahead of an interview the following week in which I got the job!!! I don't get nervous for interviews but I feel something in my presence/energy field had been giving off less than positive vibes (stemming from childhood) which has now been healed. Tony gives people back their power by removing any blockages caused by past experiences.

Last Friday, I had myself checked by the Lung/chest specialist - she said that my TB/Asthma was fine - although she heard from me just before that I had stopped taking the medicines for a few months. So your healing worked and I am very happy about it!

W.G. - UK

Thank you so much for yesterday. I felt energised and light when I left yesterday and feel even better this morning. All the stiffness in my neck and lower back that I normally wake up with, were not there this morning and my abscess has practically halved in size. Even my right elbow has eased considerably.

C. G. - USA

The first few days after the treatment for my gut problems I didn't notice a lot of difference, but subsequently my whole system seems to be working much better and with a regularity I haven't had for years! Many thanks for this, I can't tell you how grateful I am.

D.L. - Manchester, UK

Thank you, thank you, thank you. The change to my life has been amazing. Thanks again

S.O. - North Wales

I was diagnosed with dystonia, neck tremor where the neck muscles are out of balance, and not happy with NHS suggestion of Botox or medication. One session with Tony and the tremor has substantially reduced. The result is more than I could have hoped for. The day after the session I went to the osteopath who said the muscles either side of the neck were in balance. Amazing. I look forward to another session and in addition intend to take the two (Living Lens) workshops.

Wini Jones Lewis - North Wales

Since my Healing & Energising workshop with Tony Mills my spirit is at peace. I have realised I do not need love and acceptance/approval from anyone except myself, God/Jesus/the Universe. Perhaps I now also understand that no other person can make me complete expect myself and my children. My lovely family and friends are the icing on the cake of life.

Margaret McDougall - Scotland

I have suffered from very cold feet for a long time, Tony done some healing on them and now i have lovely "toasty" feet and no longer need my bed-socks, ahhhhh so great to have them "alive" again. Thank you Tony.

Marion Menger, Germany

I've given my spare pendant away as a present to one of my reiki students, and when I met her today she said she wouldn't want to be without it any more, as she feels kind of naked - energy-wise - when it's not there... and I feel the same...

Christine Roberts, Wales

Feel good ..feel normal ..I haven't felt like this in ages. Thank you so much. Can I ask what you did cos I'm amazed !!

Anne Lozes Buchs, Mallorca (Purchased a Red 9 Harmonising Pendant)

I am so pleased to have this pendant, which is quite powerful... It helps me a lot ! Thank you.

Anna Kuziw, Manchester

Tony is a very special man with a special gift - he will always try and help with whatever your problem may be. You will come out of a session feeling so much stronger than before. Thanks Tony xx

Julie Silver, Manchester

Thanks for the wonderful healing workshops you gave at One World Festival the other week. I could feel a difference in my energy as you were working and it felt like it was at a deep level so onwards & upwards :) I've heard about some profound healings you've witnessed - you are an amazing facilitator of healing xx

Dave Binder, Manchester

I have known Tony for 3 years.....when I first saw his work, I was slightly sceptical....I had never seen anything like it.....but since then I have grown a great understanding of how the body manifests our emotional blocks.....and Tony has done healing with me over the last 2 years.....and I can honestly say I'm now unrecognisable.....Yes I have had other forms of healing as well as a general expansion of consciousness....but I have no doubt in my mind that the work Tony has done has played a MAJOR role in releasing many of the blocks I had.....

I also wear an electromagnetic pendant 24hrs a day.....and I NEVER feel tired on the laptop all day, or the phone.....and dont recall any ill effects from these items since wearing it.

Tony works on intuition & guides....and I would highly recommend him for any emotional clearance.....Its very subtle....and not an overnight experience.....but it becomes embedded into your subconscious and is highly effective.

Ciaran Dempsey

I have a "Thank You" for Tony. He spoke to me at One World 2011 in the early hours of the morning, in more-than-peculiar circumstances. His simple words were of enormous help to me in the "circumstances". Thank Goodness you were there, Tony !

Ariston Wolfe

Thank you for helping with my back problem at One World!

Michael Richmond

Thank You for your input about the Coughing. I have worked on the (being over critical, having an inferiority complex) and there as been a marked difference. Wishing You the Very Best in Life. Love Joy Michael :)

AM, Manchester

After years of illness and loneliness, bit by bit Tony has helped me get my life back. I trust him. He is a special person and a deeply compassionate man. I had no hope and now I have hope.

ML, Anglesey, Wales

I went to see Tony for one therapeutic session and this one visit completely transformed my life and outlook on the future.

MWV, Mallorca

I feel so great. I feel I can concentrate and pay attention much more easily. I feel empowered and ready to embrace and accept whatever comes my way. I even sleep better.

CG, Cumbria

After the treatment for my gut and throughput my whole system seems to be working much better and with a regularity I haven't had for years! Many thanks for this, I can't tell you how grateful I am. My son, also seems to have noticed benefits since you gave him a similar treatment, and generally he seems happier and more stable in his emotions, and also therefore in his relationship to his wife, so we both have much to thank you for.

SM, Texas

Mary called to let me know there had been a huge change in Heather (the young girl at the last group) – she was smiling and talking both in school and at the gym. She told Mary she was no longer so affected by the fact that she had been abandoned twice; by her biological mother and by a foster mother – she had let go of the anger. Her teacher wanted to know what miracle had occurred!!

MT, Berlin

Everything that Tony found for blocks in these areas for myself, husband and children were completely "right on target" Tony picked up a "lung meridian" imbalance in both my husband and my daughter. Interestingly, when my husband gets sick it is always with chest congestion and coughing and my daughter who is 12 years old now, had pneumonia when she was age 10.

RJM, London

Well, I didn't quite know what to expect and therefore I had no pre-conceived expectations. The spine blockage removals have been quite astounding. The major outcome has been a tremendous feeling of peace and serenity. I know everything is fine no matter what.

SB, Yorkshire

During the session I really felt as though my spine was being realigned and it felt brand new by the end of the session.

SJ, London

I feel I transcended the tribal into the glorious personal.

BL, Manchester

I felt I had all the right questions but not the right answers until Tony worked on my subtle bodies.

I attended Tony's workshop at TS Rochdale, Manchester. UK on Saturday last, not really knowing what to expect. When he began I thought, mmmm...strange, but lets keep an open mind. Although some of the ladies were becoming emotional, & some were reacting to Tony's (almost psychic gyrations) I thought one lady was going to start break dancing or do a Michael Jackson moon walk! Another lady I thought might float away at moments notice!! I didn't really feel anything but thought to myself 'ok lets keep an open mind here and see what transpires' and this is where things changed, let me tell you more.

During the afternoon session Tony said he would concentrate on the spinal area and continued using the dowsing rods, which a small part of me still thought he was moving physically. When it came to my turn it was discovered that I had problems with (I think L2 or L4), Tony stating that it related to cramps and parent issues (though I had a good upbringing), and so standing in the centre of the room I decided to close my eyes and see what would happen. I could feel Tony's presence around me naturally, but didn't know what he was doing, and apart from becoming really hot nothing more was experienced. Now this is where things changed.

At the end of the workshop I was chatting to one of the participants, leaning over to talk to her and thought.. 'that's strange my back isn't hurting, in fact it isn't hurting at all' ! Let me tell you that I have had a problematic back for some 18/19 years and over the years have attended sports massage clinics, Osteopaths, chiropractors (who said they would sort my back out for £3,500!) I have had x-rays which showed nothing, MRI scans, which showed nothing, Physiotherapy, I even invested in an inverter in the mid 90's so I could hang upside down, rather like a bat !! this gave some relief but didn't alleviate the problem.

The latest thing I tried was visits to Salford university Podiatry dept. Apparently of 90% of people who have back issues the problem arises from the feet. So I had inserts put in my shoe's and attended weekly manipulation sessions, where they discovered that I have zero movement in the lumbar part of my spine! This was between October and December last year. When my back is particularly bad , other people spot it, they say something like, ' is your back bad today? yep, why? its because you're walking like a duck'

After the workshop I didn't say anything because I put it down to imagination, but popping into the town centre afterwards and getting out of my car, I thought 'that's strange my back isn't hurting' and this has continued. I bend over and no pain, I get in and out of the car, no pain, I sit down, no pain, I stand up, no pain, I walk in the park/ shopping centre and don't have to sit down after 15 minutes, NO PAIN, I'll say that again, NO PAIN !!, NOTHING !! I don't know what Tony did or, who/what he channels into but it worked ! All the aforementioned things have never worked and my back has made me miserable FOR YEARS AND YEARS ! Five minutes with Tony and the pain and discomfort have (almost miraculously) disappeared ! There is some stiff muscles in the lumbar area similar to when one has been working in the garden for a number of hours and nothing that a stretching session or hot bath wouldn't sort out. But the constant aching (like someone is twisting a large metal bar into my back has gone...COMPLETELY! which I do hope continues and am sure it will. I will definitely be attending the next session in September with Tony at True Serenity, without a shadow of a doubt !

LO - Manchester

I would like to fill you in regards how things have been and still continuing for me since my one to one session and Living Lens Training Level One....I have and still continue to experience a shifting on all levels. I feel much more connected to God. My thinking and understanding capacity as improved with new meaning and depth. I now have a clear vision of my life's purpose. I feel totally relaxed and calm. I am more focused on myself and my well being. I experience a massive rush of energy run from the base of my back upwards through my body. I now feel my whole body as moved into alignment. I truly feel amazing and for the first time in my life the light as switched on and it's shining ever so bright.

PD - Spain

What you did yesterday quite amazed me, in fact it blew me away! The work you are doing is amazing and I will be sharing it with whoever I can.

Epilepsy

I am totally gobsmacked at the difference in my health over the last week. It has been absolutely amazingly brilliant! I haven't had 1 seizure, fit, absence or epilepsy related incident of any type, at all!!! I also haven't had to take any painkillers at all since the weekend for my gall stones. It's so overwhelming. Thank you, thank you, thank you! The change to my life has been amazing. Thanks again.

Last check up was incredible, the doctor congratulated me because the tumors and noduls were reduced and two of them had almost disappeared. This is very good news!!

Distance healing

Thank you so very much for working on me. I tend to feel cleaner and lighter after you pull energy off of me. The week-end before last, I was feeling like I was about to collapse with all the pressure and stresses going on. Then, by Sunday afternoon, I felt normal again. Thanks so much.

D - Switzerland.

My back is good and the anxiety still all gone .

F. is most grateful. He said he slept so well that night after the session with you, and all his fear is gone. He sounded completely different on the phone. Today we met for brunch, he looks well. B. also reported in: she was thrilled with her session. I ran into B. and she was full of praise as well. You did good ! Many thanks !
